

## WHITEPAPER

### Introduction

Welcome to the YellCat whitepaper, where we invite you to join the **YELLvolution: Memes with Heart and Humor, Celebrating Creators**. Our commitment is to spread joy and laughter through our meme-inspired project, celebrating the heart and humor behind them while recognising the talented creators who brought them to life. Dive into a world of laughter and creativity, where memes are more than just jokes—they're a testament to the boundless imagination and wit of our community, while also making a positive impact through charitable giving to feline welfare initiatives.

Yellcat.meme draws inspiration from the iconic internet meme "Woman yelling at a cat" and pays homage to the legacy of Muffin the Ragdoll cat. But we're not stopping there—we're taking memes to a whole new level of hilarity by incorporating a fun feature inspired by PopCat. Get ready for an animated surprise featuring Muffin the Ragdoll cat farting and the woman yelling. It's sure to bring a smile to your face and add a dose of laughter to your day.

But the fun doesn't end there. At Yellcat.meme, we're dedicated to fostering a community of creators who aren't afraid to think outside the box and come up with their own fun twists on classic memes. We want to see more creators like you embrace the absurd and the silly, just like we did with FartCat. Whether it's adding unexpected elements to existing memes or creating entirely new ones, we believe that creativity knows no bounds.

That's why we're introducing dynamic NFTs—a revolutionary way to recognize and reward creators for their contributions. With dynamic NFTs, creators can showcase their originality and creativity in a whole new way. These NFTs evolve based on community interactions and milestones, ensuring that creators are properly recognized and rewarded for their efforts. It's our way of saying thank you for keeping the meme culture alive and thriving.

*The YellCat project leverages the power of memes to build a strong community and a new web3 economy. By integrating NFTs and dynamic NFTs, YellCat offers a unique platform for meme creators to monetise their content and for users to engage with the meme culture. With our animated gif feature, we're adding an extra layer of fun and interactivity that sets us apart from other meme projects in the Solana ecosystem and beyond.*

*At the heart of YellCat lies a vibrant community of meme creators who bring laughter and joy to our platform. We recognize the invaluable role these creators play in shaping our identity and fostering community engagement. Through our decentralized governance model, we empower the community to support and reward meme creators, ensuring their voices are heard and their contributions are celebrated—animated farts, yelling and all!*

*Moreover, YellCat proudly champions charitable causes, with a particular focus on making a positive impact in the realm of feline welfare. Through strategic partnerships and initiatives, we dedicate a portion of our resources to support shelters, rescue organisations, and initiatives that improve the lives of cats around the world. By combining humor with heartfelt advocacy for feline welfare, YellCat not only brings joy to the digital landscape but also makes a tangible difference in the lives of our feline friends—animated farts, included!*

## YellCat's Tokenomics

*YellCat's tokenomics are designed to promote fair distribution, community engagement, and charitable contributions:*

- Total Supply: 777,777,000,000 (777+ Billion) \$YELLCOIN

### Strategic Allocation

- Seeding Phase: 10% (77,777,700,000 \$YELLCOIN)
- The Seeding Phase jumpstarts \$YELLCOIN's journey, providing early supporters with a chance to secure tokens at a favourable rate, fostering community engagement and incentivising participation from the outset.

- **Community and Ecosystems: 60% (466,666,200,000 \$YELLCOIN)**
  - *Our community is at the heart of \$YELLCOIN's success. With over half of the total supply dedicated to community initiatives and ecosystem development, we prioritize inclusivity, innovation, and long-term sustainability.*
- **Liquidity Pool: 5% (38,888,850,000 \$YELLCOIN)**
  - *Ensuring a stable market is paramount. We commit a portion of funds to the liquidity pool, safeguarding against volatility and facilitating smooth trading experiences for \$YELLCOIN holders.*
- **Development Fund: 10% (77,777,700,000 \$YELLCOIN)**
  - *Innovation drives progress. We allocate resources to fund ongoing development, technological enhancements, and ecosystem growth, ensuring \$YELLCOIN remains at the forefront of innovation.*
- **Team and Advisors: 5% (38,888,850,000 \$YELLCOIN)**
  - *Our dedicated team and advisors play a pivotal role in guiding the project's trajectory. This allocation recognizes their expertise, commitment, and contribution to \$YELLCOIN's success.*
- **Marketing & Partnership: 10% (77,777,700,000 \$YELLCOIN)**
  - *Building strategic alliances and fostering widespread adoption are key priorities. We allocate resources to fuel marketing initiatives and establish partnerships, amplifying \$YELLCOIN's presence in the global market.*

## Key Features

- **No Transaction Tax:** *Every \$YELLCOIN transaction is free from additional fees or taxes, promoting accessibility and encouraging widespread adoption.*
- **Fair Launch:** *The liquidity pool is funded without imposing a tax on transactions, ensuring fairness and equal opportunity for all participants.*

- **Community Governance:** \$YELLCOIN holders have a voice in governance decisions, guiding the project's direction and allocation of resources.

## Seeding Phase: Growing Together

*The Seeding Phase is where our journey begins, and your support is crucial in helping us cultivate a vibrant and thriving community. Over the course of three weeks start in late May 2024 to June 2024, we invite you to join us in shaping the future of YellCat and contributing to our mission of spreading joy, laughter, and positive impact.*

### **Purpose:**

*During the Seeding Phase, we aim to achieve several key objectives:*

1. **Fundraising:** *By raising funds, we can kickstart the liquidity pool, development, marketing, and operational activities of YellCat. Your contributions enable us to turn our vision into reality and build a platform that celebrates creativity, humor, and community.*
2. **Community Engagement:** *Your involvement is more than just financial support—it's an opportunity to become an integral part of our growing community. Together, we can co-create an ecosystem that fosters collaboration, innovation, and inclusivity, ensuring that everyone has a voice and a stake in our success.*

## Other Features

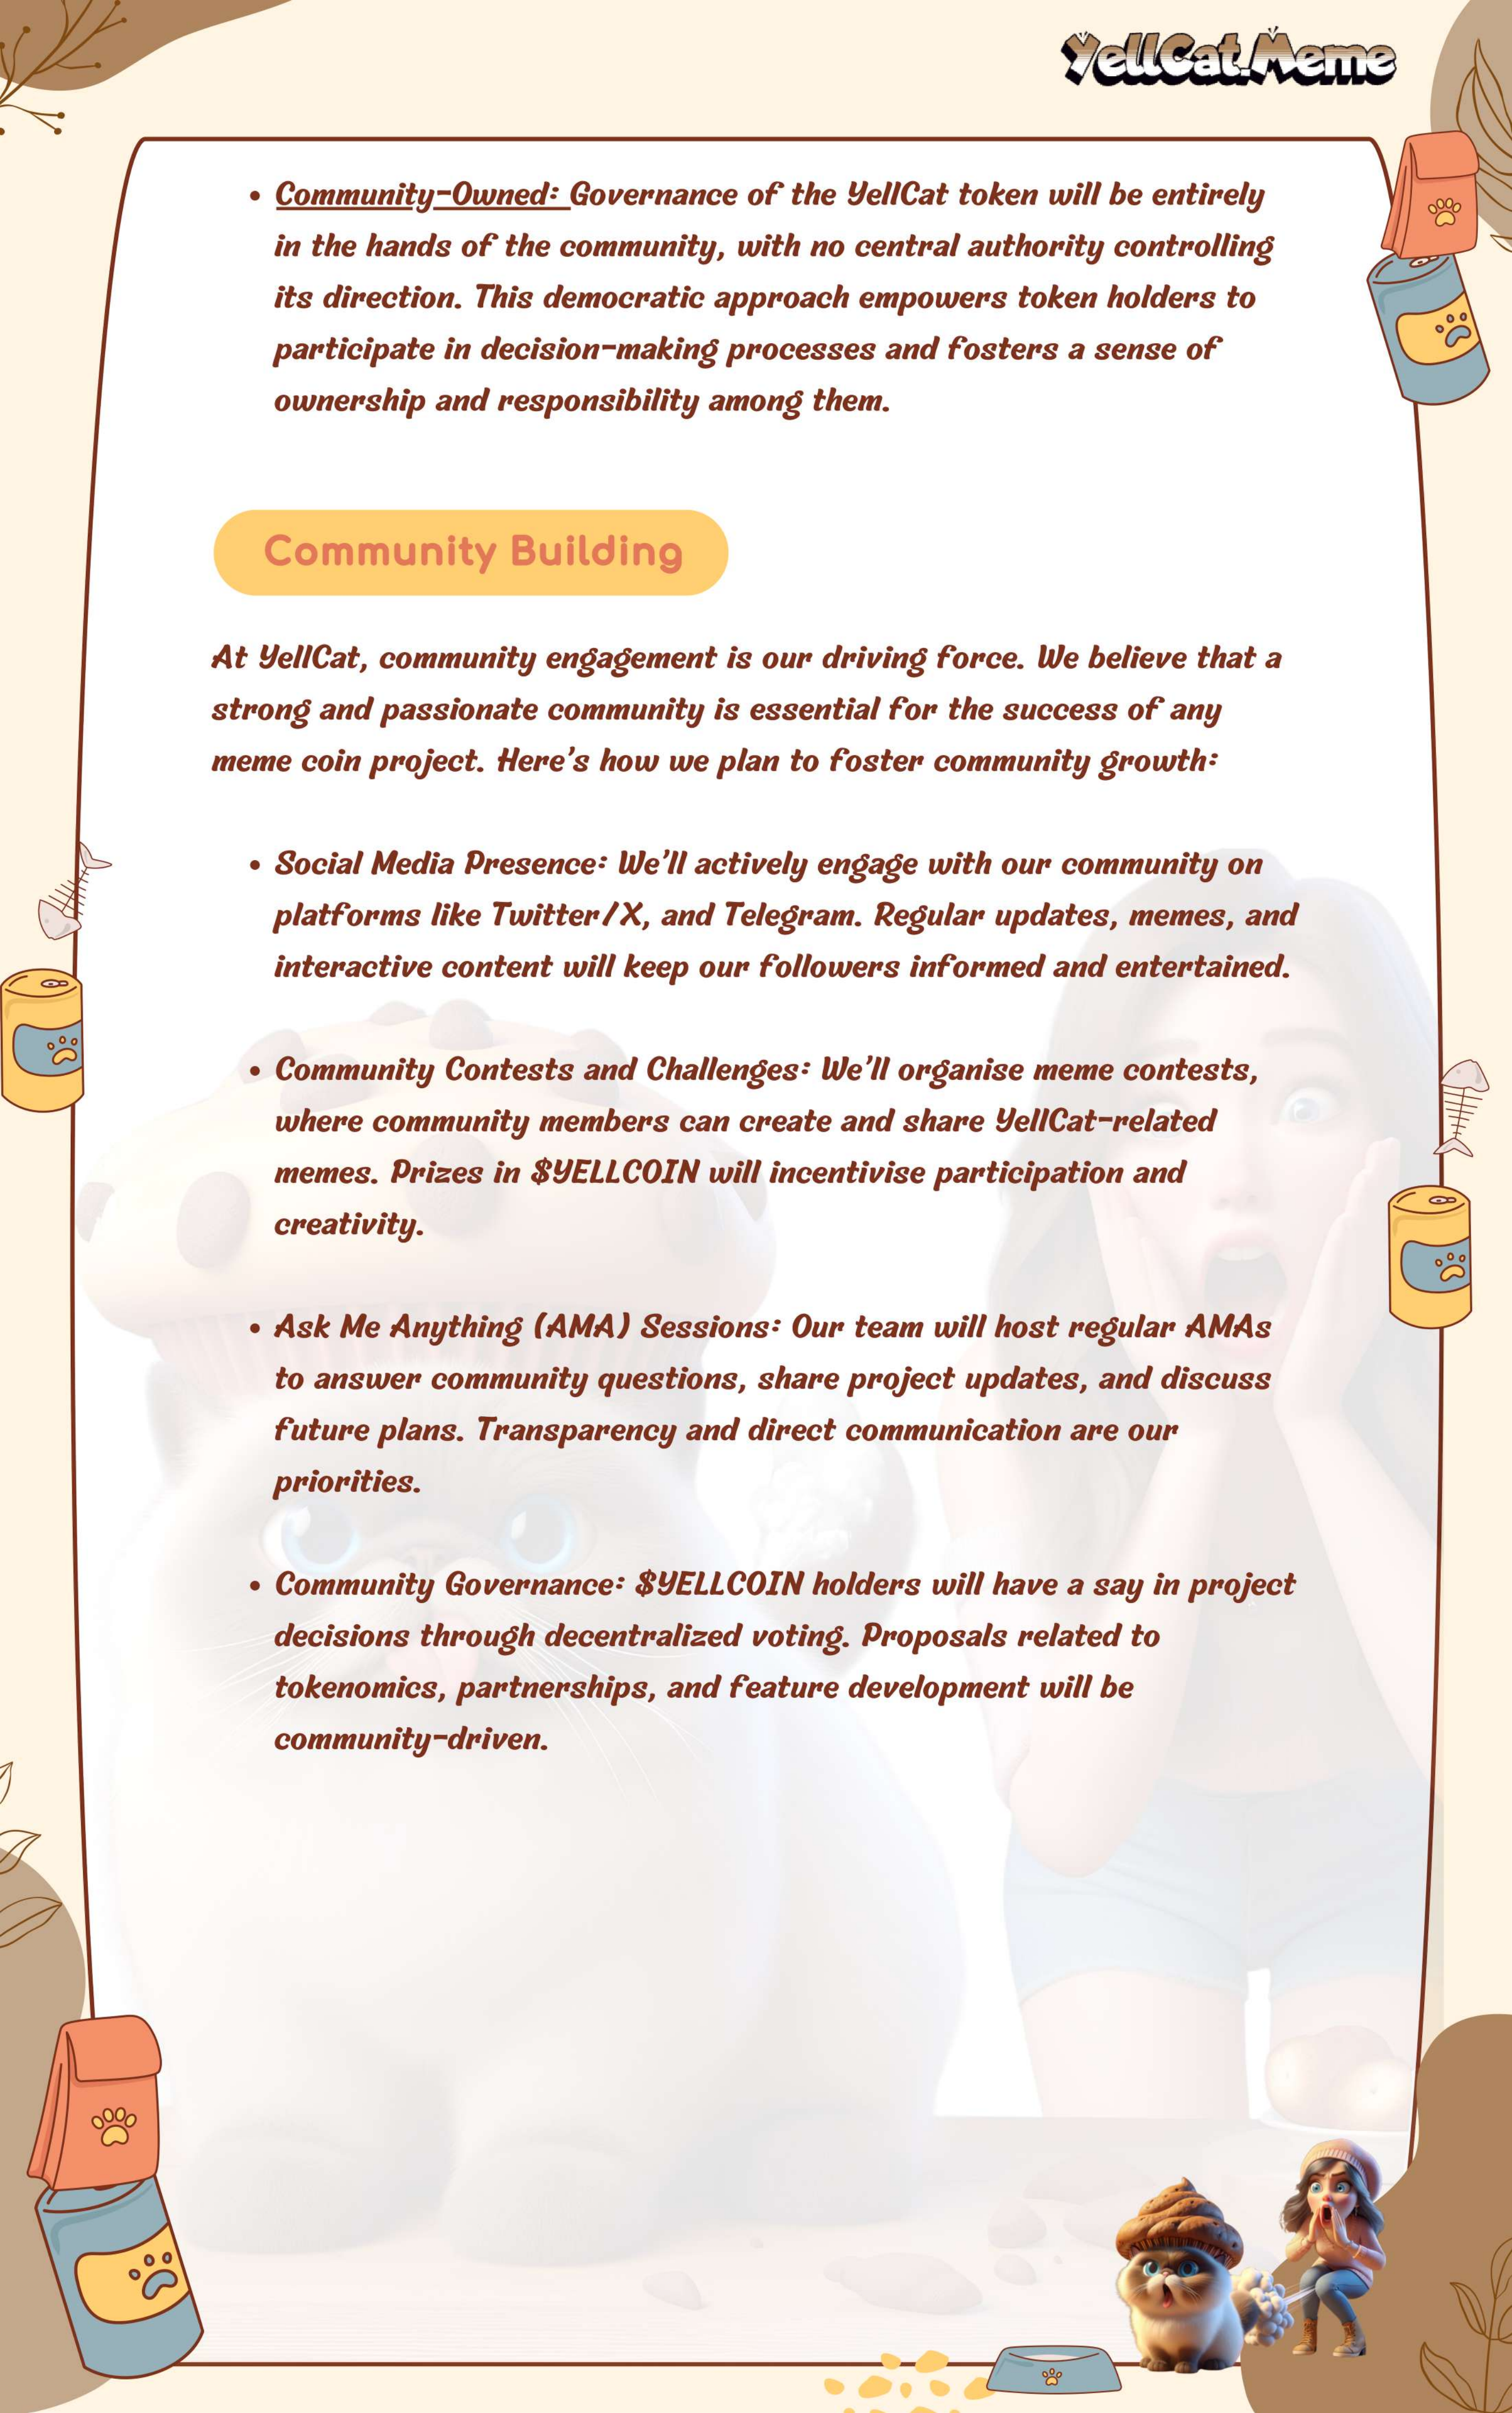

- **Fully Renounced Ownership:** *The creators will fully renounce control over the token's contract, ensuring its immutability and transparency. This fosters trust within the community by eliminating any potential for unfair influence from the creators.*
- **Burned Liquidity Pool:** *YellCat will adopt the practice of burning liquidity pool tokens, effectively removing them from circulation permanently. By doing so, the project aims to prevent the risk of rug pulling, a common scam in the crypto space.*

- **Community-Owned:** Governance of the YellCat token will be entirely in the hands of the community, with no central authority controlling its direction. This democratic approach empowers token holders to participate in decision-making processes and fosters a sense of ownership and responsibility among them.

## Community Building

**At YellCat, community engagement is our driving force. We believe that a strong and passionate community is essential for the success of any meme coin project. Here's how we plan to foster community growth:**

- **Social Media Presence:** We'll actively engage with our community on platforms like Twitter/X, and Telegram. Regular updates, memes, and interactive content will keep our followers informed and entertained.
- **Community Contests and Challenges:** We'll organise meme contests, where community members can create and share YellCat-related memes. Prizes in \$YELLCOIN will incentivise participation and creativity.
- **Ask Me Anything (AMA) Sessions:** Our team will host regular AMAs to answer community questions, share project updates, and discuss future plans. Transparency and direct communication are our priorities.
- **Community Governance:** \$YELLCOIN holders will have a say in project decisions through decentralized voting. Proposals related to tokenomics, partnerships, and feature development will be community-driven.

## NFT Integration

*NFTs are at the heart of YellCat's uniqueness. We're not just a meme coin; we're a meme NFT ecosystem:*

- **Meme NFT Collection:** *YellCat will release a series of meme-inspired NFTs. These NFTs represent iconic internet moments and can be traded within the YellCat ecosystem.*
- **Dynamic NFTs:** *Our dynamic NFTs evolve based on community interactions and milestones. Rarity levels and special features make them collectible and valuable.*

## Development Roadmap

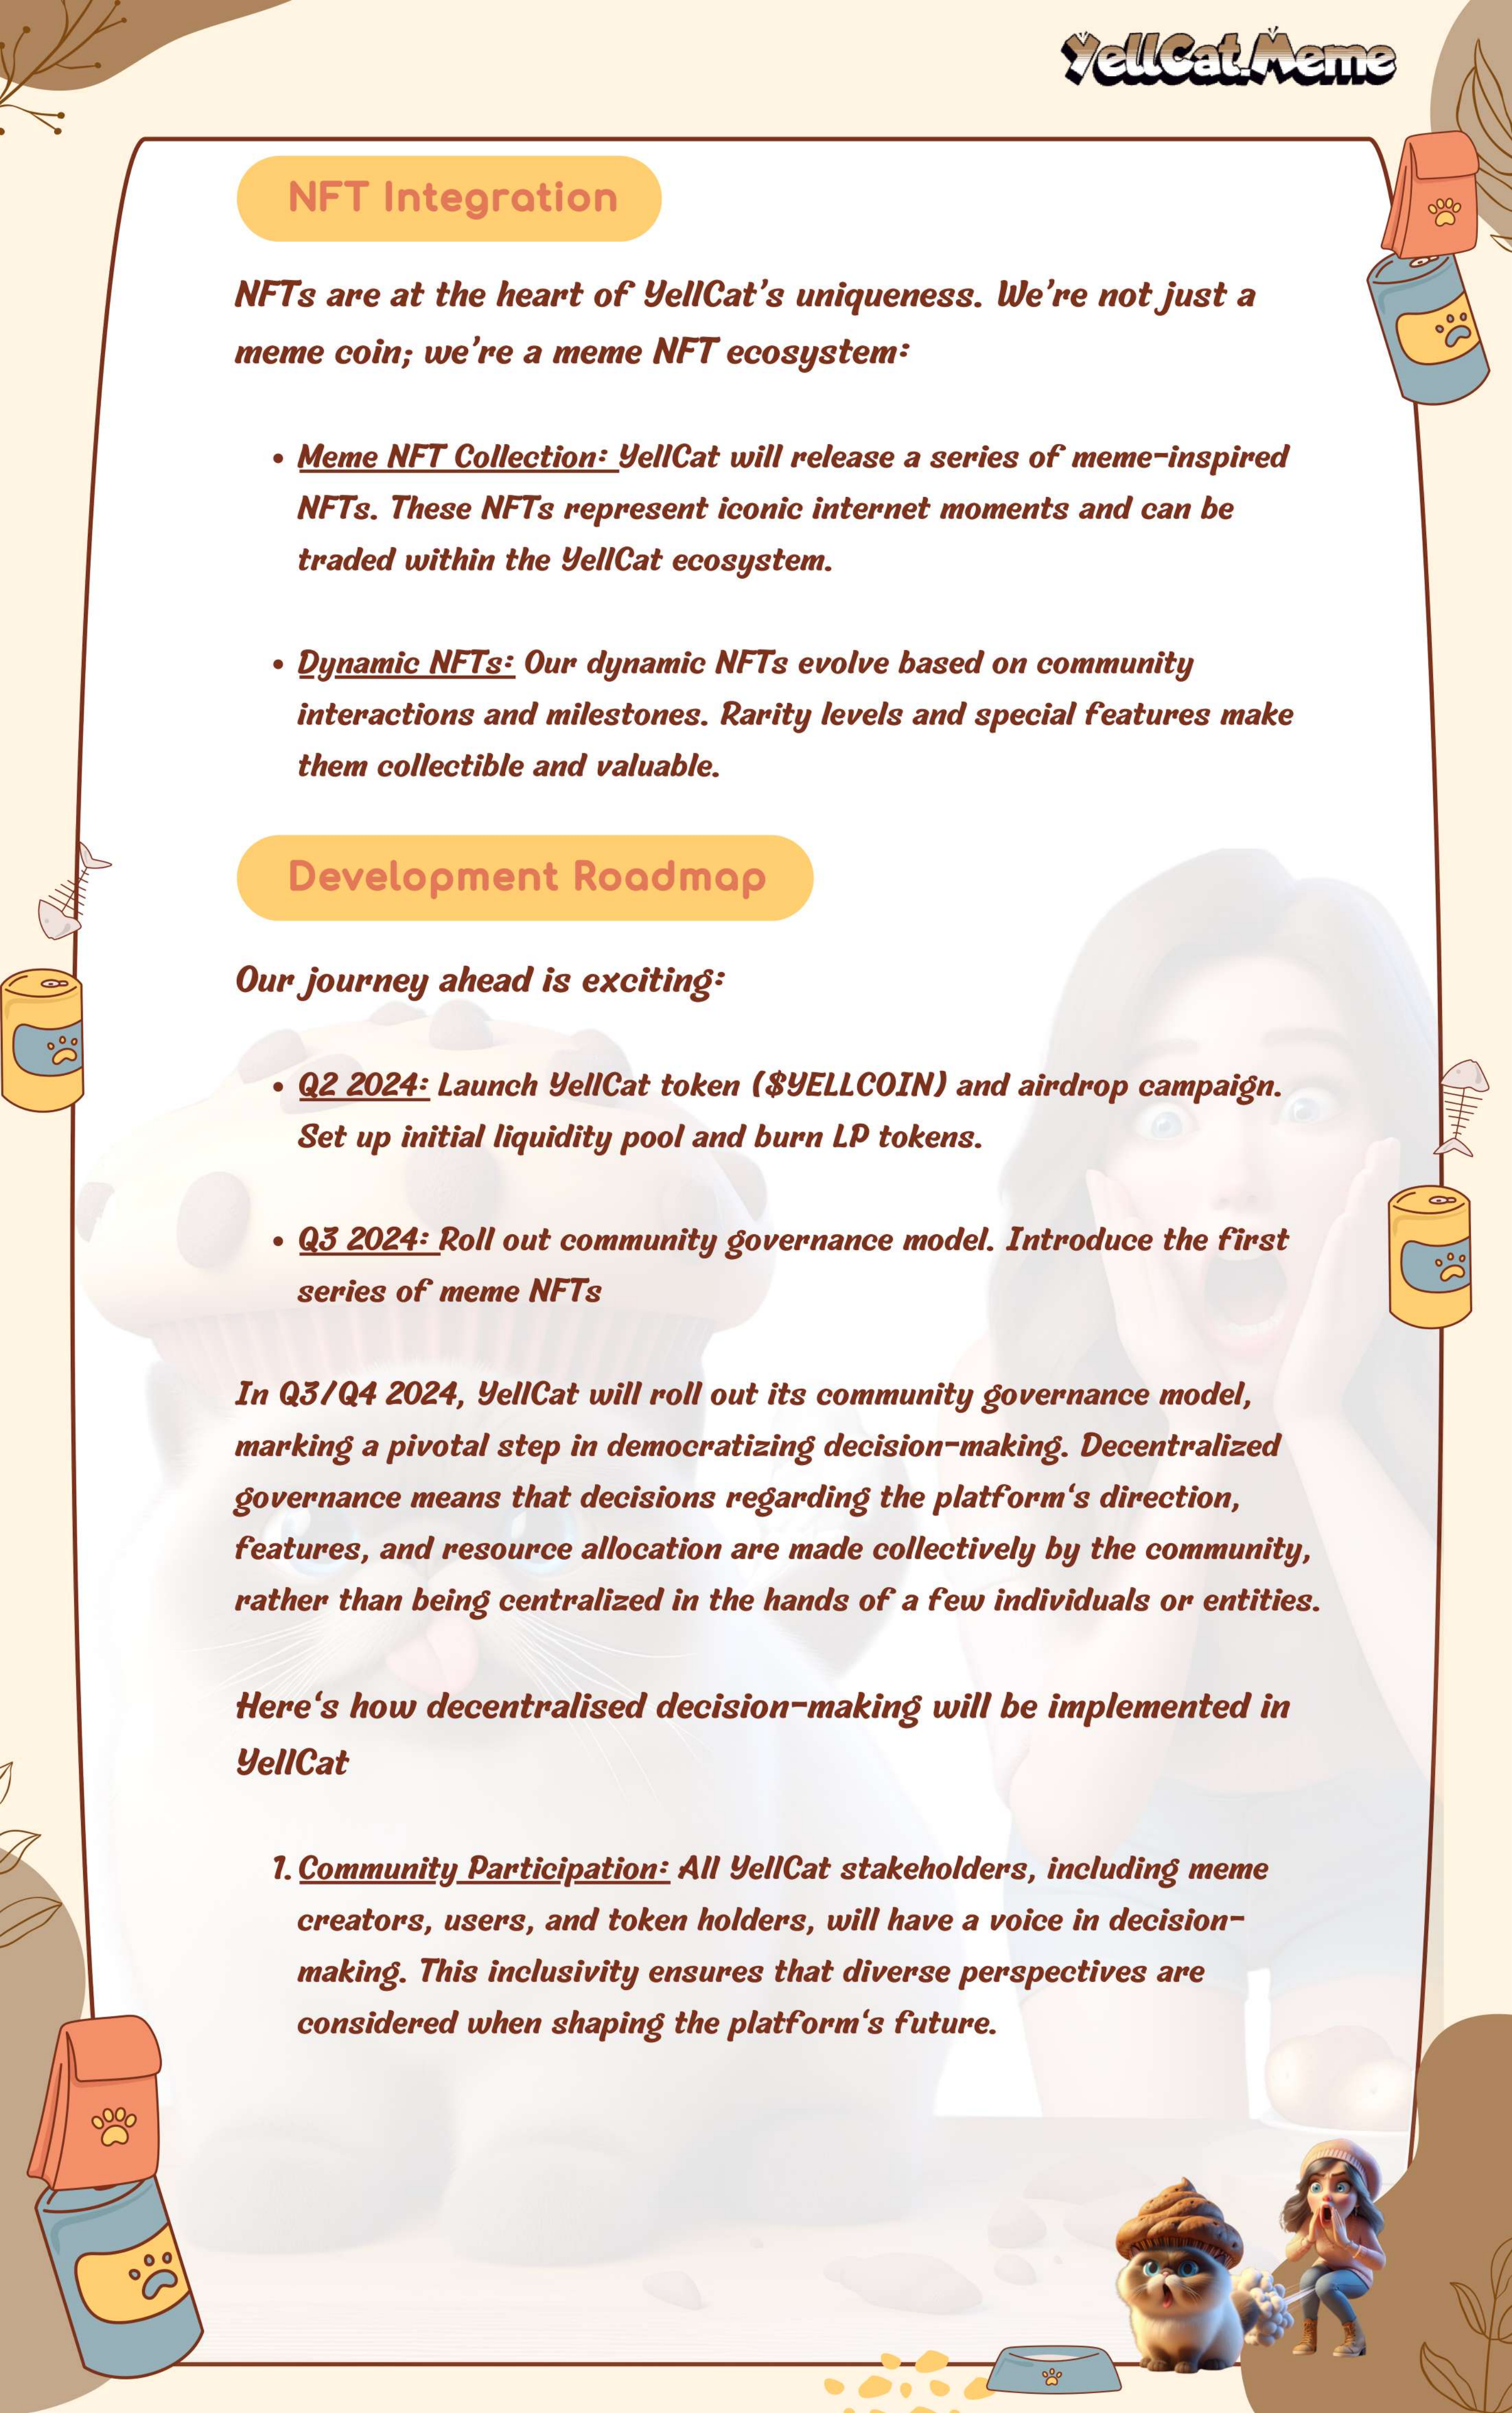

*Our journey ahead is exciting:*

- **Q2 2024:** *Launch YellCat token (\$YELLCOIN) and airdrop campaign. Set up initial liquidity pool and burn LP tokens.*
- **Q3 2024:** *Roll out community governance model. Introduce the first series of meme NFTs*

*In Q3/Q4 2024, YellCat will roll out its community governance model, marking a pivotal step in democratizing decision-making. Decentralized governance means that decisions regarding the platform's direction, features, and resource allocation are made collectively by the community, rather than being centralized in the hands of a few individuals or entities.*

*Here's how decentralised decision-making will be implemented in YellCat*

1. **Community Participation:** *All YellCat stakeholders, including meme creators, users, and token holders, will have a voice in decision-making. This inclusivity ensures that diverse perspectives are considered when shaping the platform's future.*

**2. Voting Mechanism:** Through a transparent and secure voting mechanism, community members will be able to propose and vote on various initiatives, such as the introduction of new features, allocation of funds for charitable causes, or the creation of meme NFTs.

**3. Token Governance:** YellCat's native token will play a crucial role in governance. Token holders may use their tokens to vote on proposals or delegate their voting power to trusted representatives, ensuring active participation even from those unable to directly engage.

**4. Smart Contracts:** Decisions made through the governance model will be executed transparently and automatically through smart contracts, minimising the risk of manipulation or bias.

As part of this rollout, YellCat will also introduce the first series of meme NFTs. These NFTs will not only serve as unique digital collectibles but also as a means of recognising and rewarding creators for their contributions to the platform. Each NFT will be a testament to the creativity and humor of the community, further strengthening the bond between creators and users.

By embracing decentralised decision-making and empowering its community, YellCat aims to foster a vibrant ecosystem where creativity thrives, and everyone has a stake in shaping the future of meme culture.

## Conclusion

This whitepaper outlines the vision, features, and roadmap of the YellCat project, highlighting its commitment to community engagement, innovation, and charitable contributions. Join us in the YELLvolution and become a part of the meme culture with heart and humor!
